

MGL Support Structure

MGL have responded to the current Covid-19 situation by establishing a support structure for all residents within our Maisemore Gardens.

A Helpful Neighbour. With the fast changing situation that we are all required to respect, there will be some residents who would be more secure in the knowledge that there are specific friends within the community who are happy to provide support or assistance to anyone who feels the need for some help.

Any type of Help. There are no specified limitations as to what help can be provided. We will try to solve the problem either directly or by redirecting to a source that can assist.

Suggestions. We welcome suggestions that will make our day to day activities safer, flexible, and more enjoyable.

Information Dissemination. Any information that could assist day to day activities. For example, The Emsworth Alliance is being setup by the butchers, the deli, the green grocers, other shops, as well as some pubs; to put together a combined delivery service of their wares. A web site has been established to promote this service. See www.emsworthalliance.co.uk. It is planned that for those without internet, this information will be posted upon our notice board.

Worried about your finances - Confidential advice can be provided if you are worried about any financial issues and if you feel you may be entitled to any financial assistance but you need help with the process and forms.

The Support Structure. The people listed below have volunteered to act as a first point of call for any assistance. It is hoped that you will feel comfortable in contacting someone within this list. If you do not wish to be part of this support network, please do let Barry know, and he will remove you from the list of residents being circulated.
